

Sat. Night - May 22

Dear Jack:-

Was pleasantly surprised to receive your nice letter - really is nice to hear from friends back home. I too, was sorry didn't get to see you before I left. Glad to hear about the crowd at church on Easter, went to First Methodist Church here on Easter and heard a beautiful Cantata: has an overflow crowd with service men, both army and navy, in the majority with a little to spare. Have a very nice assignment here at a very good hotel which is operated by the Navy as a rest and recuperation center for the men just back from action. The other men on the staff are very nice, and the work is pretty good. Climate has been very nice so far with a cool breeze usually blowing.

Surely to miss being at home all right - but it is a very happy experience to look forward to and I pray that it will not be too far distant. Received the Trinity Service Bulletin the first of the week and really enjoyed reading it immensely. Nice to hear where and what the other boys from Trinity are and activities they are engaged in: know all of them must look forward to receiving the Bulletin as I shall from now on. Thanks for putting me on the list. Please give my regards to your lady wife and children, also my other friends on the Board - tell them all I am feeling fine and getting along very good.

With very best wishes to you, and to the splendid work you are doing at Trinity: may our Church always serve Our Master devotedly and faithfully. Sincerely yours
Robert
